Who we are

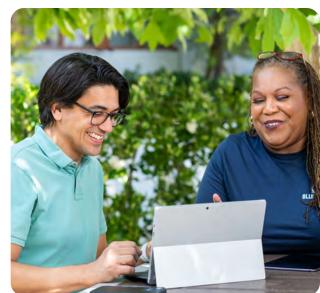

Since 2002, Bluebeam, Inc. has been at the forefront of the digital revolution in construction technology. In 2014, we joined Nemetschek, a global pioneer in the digital construction space with software solutions covering the entire project lifecycle.

At Bluebeam, our mission is to continually disrupt the status quo and unleash human ingenuity on every project in the built world. That's why we're committed to improving the lives of design and build teams everywhere with reliable, easy-to-use software solutions that save time and money, project after project.

Today, more than 3 million people in over 160 countries use Bluebeam solutions to mark up, collaborate and get more done.

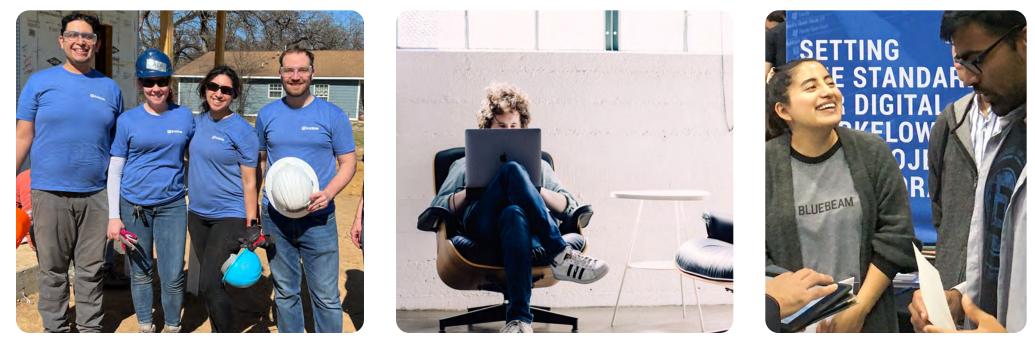

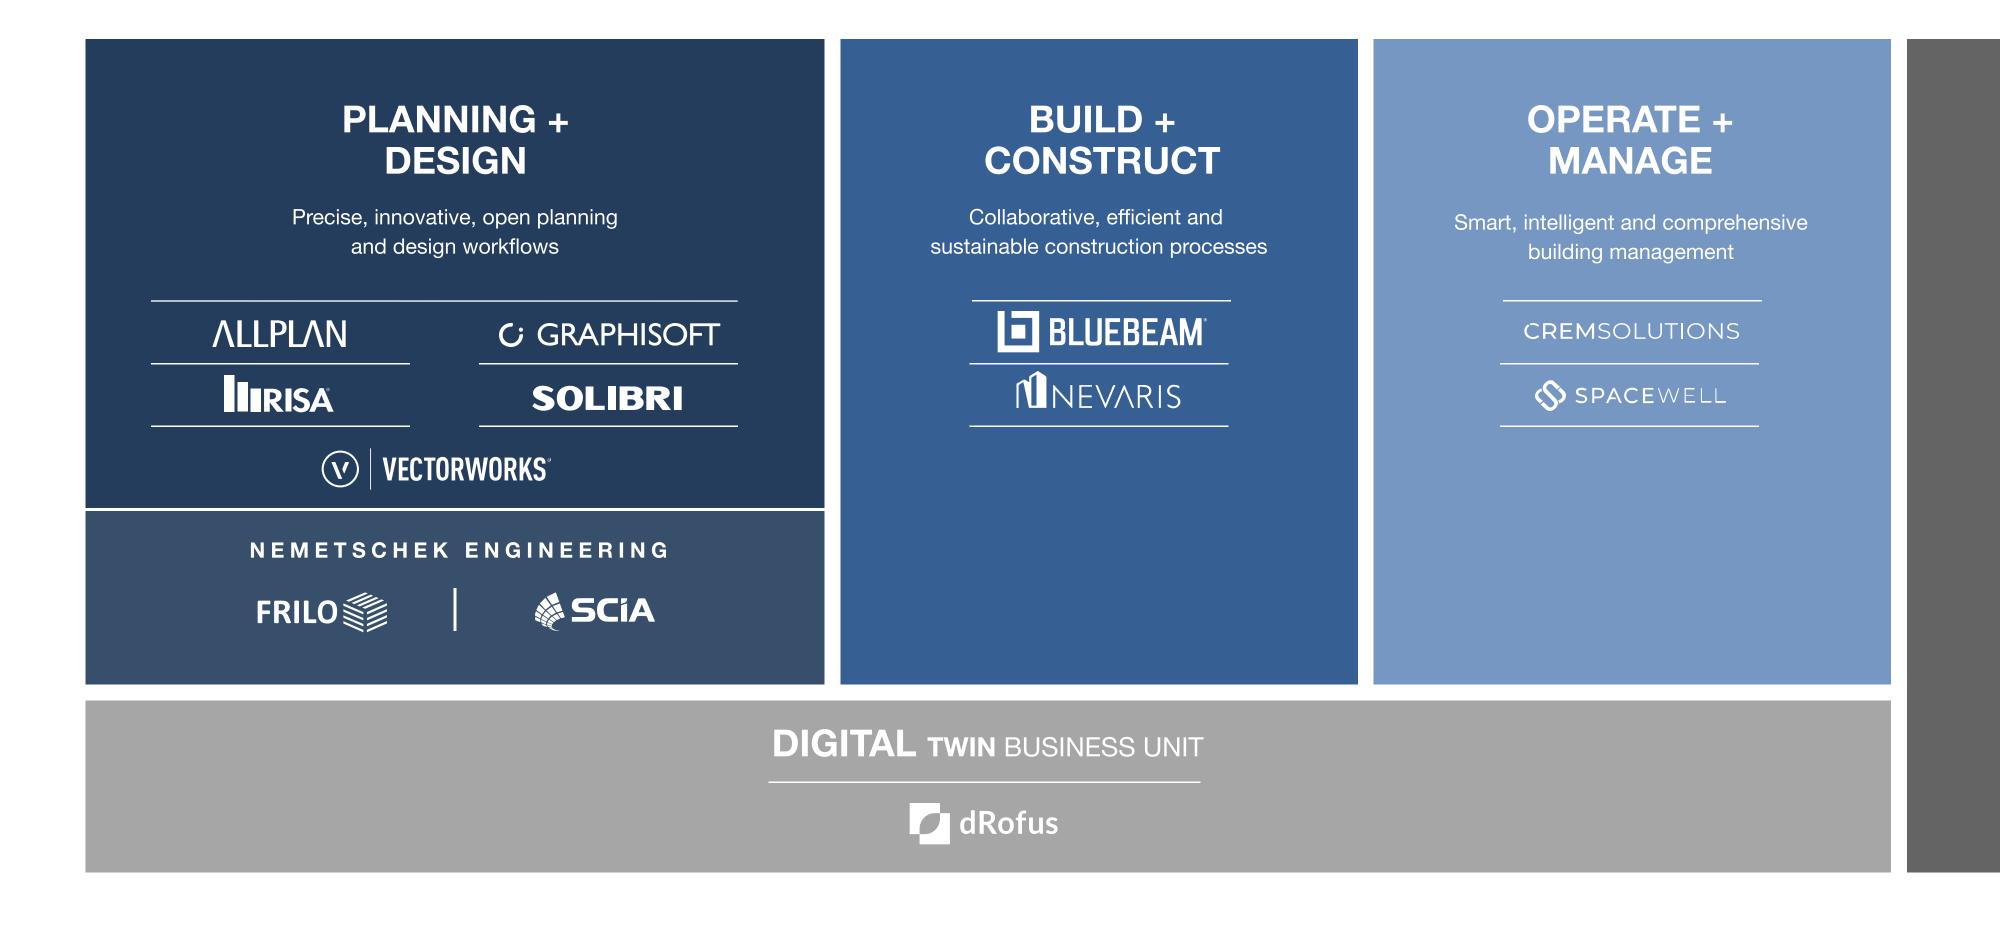

The Nemetschek Group

We're a proud member of the Nemetschek Group, a global pioneer in the digital construction space with software solutions covering the entire project lifecycle.

Together with our sister brands, we're driving digital transformation across the global AECO industry with a shared commitment to open standards and continual innovation.

Nemetschek's unique structure gives Bluebeam the entrepreneurial freedom to develop innovative, customer-focused solutions, with the added benefit of cross-collaboration and knowledge-sharing for best-in-class tools.

Bluebeam Timeline

A core brand of the Nemetschek Group, the name "Bluebeam" has been synonymous with digitalization in the construction industry for nearly two decades.

2002

Bluebeam launches its first product, Pushbutton PDF.

2005

Bluebeam releases Revu, the first annotation and editing solution for the design and construction industry.

2010

Bluebeam integrates cloud-based collaboration and storage directly into Revu with Studio.

2014

Bluebeam joins the Nemetschek Group, known for driving digitalization in the AECO industry.

2015

Bluebeam introduces the Studio API, making a commitment to multiplatform integration.

2022

Bluebeam takes digital collaboration to a whole new level with the launch of Bluebeam Cloud and the next evolution of Bluebeam Revu.

Key Stats

We serve a rapidly growing, global community of AECO professionals from companies of all shapes and sizes.

Product

Bluebeam Revu

Revu® offers powerful, highly customizable document management, markup and automation tools with a built-in collaboration space, Studio.

- Log in to any desktop with Revu installed and access your projects and tool sets
- Mark up and measure together with teammates in real time using Studio
- Share the latest drawings and documents with teams in the field using Bluebeam Cloud
- Automatically track all markups and edits and preserve important project data from start to finish
- Centralize entire projects in the cloud and access updates anywhere

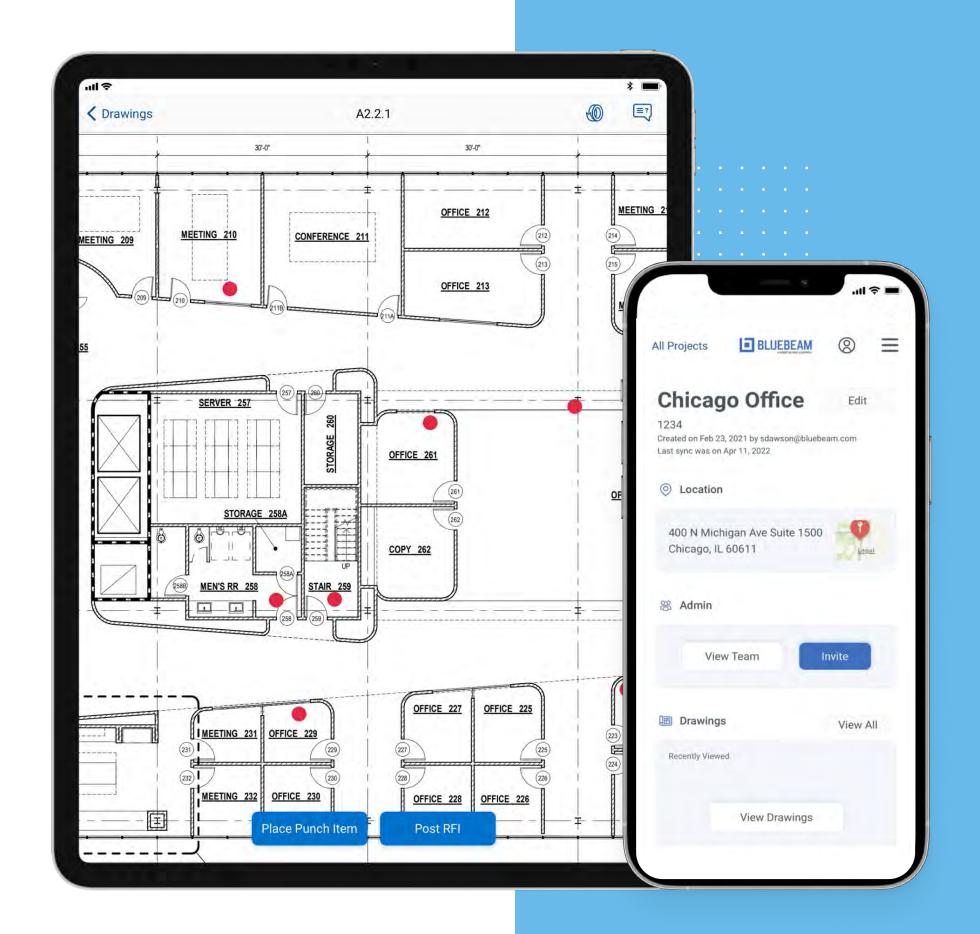

Product

Bluebeam Cloud

Connect office and field and complete workflows on the go with Bluebeam Cloud, our new suite of web and mobile solutions that seamlessly connects with your documents and tool sets in Revu

- Work from anywhere via web or iOS device no setup or installation required
- Seamlessly access your tool sets and Studio Project files from Revu
- Easily invite team members to mark up and collaborate in real time with the Markup Editor
- Effortlessly manage punch, RFIs and submittals on the go with Field Tools
- Customize collaboration permissions to ensure the right people have access to the right information

Professional Services & Training

Not only does Bluebeam offer software solutions for the AECO industry, we also provide professional services to help onboard and train users to get the best value from their investment.

Bluebeam University

An on-demand learning platform included in all Bluebeam subscription plans that provides 20+ hours of interactive, self-paced e-learning courses.

Instructor-Led Training

Live courses led by an experienced Bluebeam trainer to answer questions and get new users up to speed either in-person or virtually.

Workflow Consulting

Bluebeam provides consultants to validate existing processes against Bluebeam best practices and ensure that customers are using the software solutions to their fullest potential.

Leadership
