Who we are

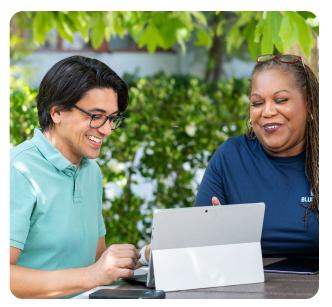

Since 2002, Bluebeam has been at the forefront of the digital revolution in construction technology. In 2014, we joined the Nemetschek Group, a global pioneer in the digital construction space with software solutions covering the entire project lifecycle.

Bluebeam empowers those who build our world. Our mission is to delight customers with innovation and a simple, elegant experience. Our vision is to enable a sustainable and efficient future by simplifying the widespread adoption of digital technologies for those who build.

Today, more than 3 million people in over 160 countries rely on Bluebeam for PDF markups, digital workflows and effective project collaboration.

The Nemetschek Group

We're a proud member of the Nemetschek Group, a global pioneer in the digital construction space with software solutions covering the entire project lifecycle.

Together, we're driving digital transformation across the global AECO industry with a shared commitment to open standards and continual innovation.

DIGITAL TWIN BUSINESS UNIT

dRofus

Nemetschek's unique structure gives Bluebeam the entrepreneurial freedom to develop innovative, customer-focused solutions, with the added benefit of cross-collaboration and knowledge-sharing for best-in-class tools.

Bluebeam Timeline

The name Bluebeam has been synonymous with digitalization in the construction industry for more than two decades.

2002

Bluebeam launches its first product, Pushbutton PDF.

2005

Bluebeam releases Revu, the first annotation and editing solution for the design and construction industry.

2010

Bluebeam integrates cloud-based collaboration and storage directly into Revu with Studio.

2014

Bluebeam joins the Nemetschek Group, known for driving digitalization in the AECO industry.

2015

Bluebeam introduces the Studio API, making a commitment to multiplatform integration.

2022

Bluebeam takes digital collaboration to a whole new level with the launch of Bluebeam Cloud and the next evolution of Bluebeam Revu.

We serve a rapidly growing, global community of AECO professionals from companies of all shapes and sizes.

Product

Bluebeam Revu (Desktop)

Bluebeam Revu offers powerful, highly customizable document management, markup and automation tools with a built-in collaboration space, Studio.

Log in to any desktop with Revu installed and access your projects and tool sets

- Mark up and measure together with teammates in real time using Studio
- Share the latest drawings and documents with teams in the field using Bluebeam Cloud
- Automatically track all markups and edits and preserve important project data from start to finish
- Centralize entire projects in the cloud and access updates anywhere

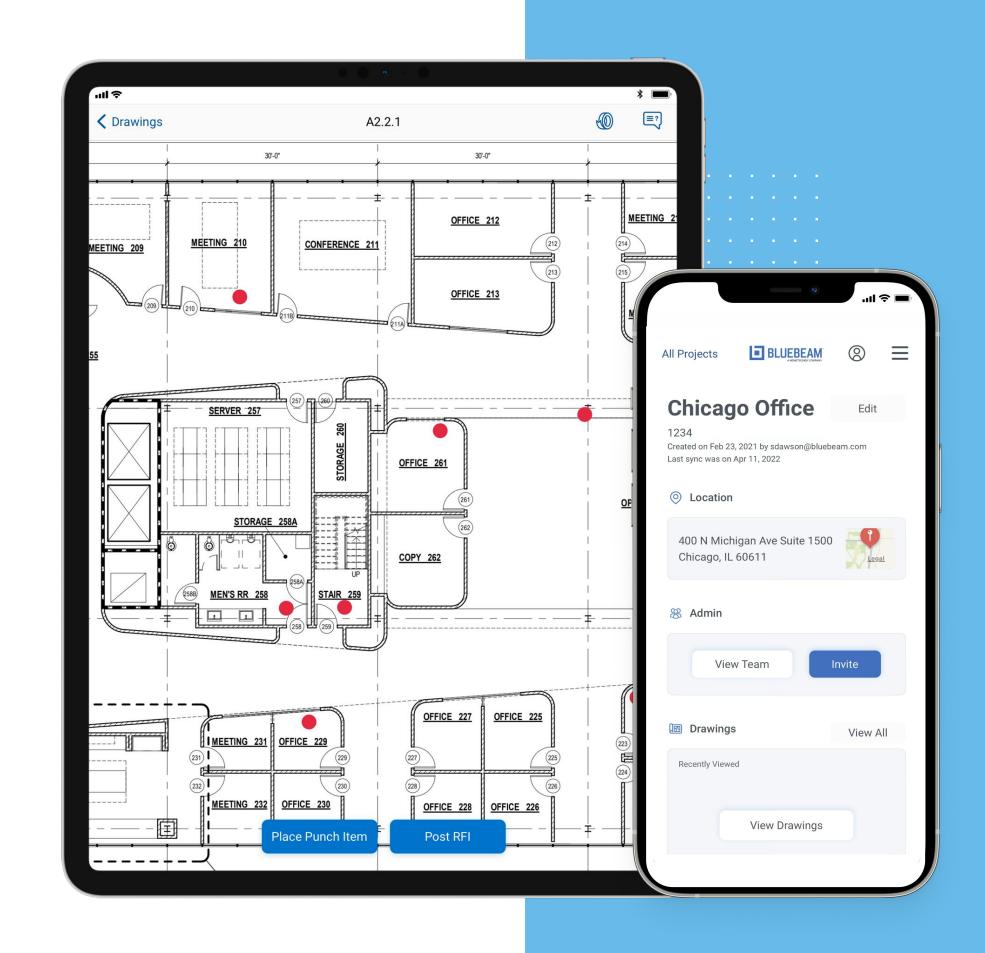

Product

Bluebeam Cloud (Web and Mobile)

Bluebeam Cloud extends Revu workflows to web and mobile to allow collaboration from anywhere.

- Work from anywhere via web or mobile device
- No need to download and install Revu before collaborating with Studio Sessions
- Easily invite team members to mark up and collaborate in real time
- Effortlessly manage punch, RFIs and submittals on the go
- Enrich project drawings with digital maps and GPS

Professional Services & Training

Not only does Bluebeam offer software solutions for the AECO industry, we also provide professional services to help onboard and train users to get the best value from their investment.

Bluebeam University

An on-demand learning platform included in all Bluebeam subscription plans that provides 20+ hours of interactive, self-paced e-learning courses.

Instructor-Led Training

Live courses led by an experienced Bluebeam trainer to answer questions and get new users up to speed in-person or virtually.

Workflow Consulting

Bluebeam provides consultants to validate existing processes against Bluebeam best practices and ensure that customers are using the software solutions to their fullest potential.

Leadership
